Responses to Council Member Requests for Information

- A. Weed Eating in Drainage Easement – On March 21, Council Member Davis shared a resident's concerns about recent weed eating, which occurred within a drainage easement

located behind the resident's fence line. The drainage easement provides the City the ability to perform maintenance if needed within the easement boundaries. This specific easement contains a drainage flume with sloped earthen embankments on either side, which runs behind 27 homes located on Bellemead Dr and Hillcrest St. Maintenance activities including mowing and weed-eating help maintain the stability of banks from erosion while allowing visibility to evaluate the easement's condition. Staff spoke with the resident and agreed to provide signs to visually guide landscaping crew members to avoid mowing or weed-eating the area behind their fence line to avoid damaging any plantings the resident wishes to maintain. Staff contact: Ethan Cox, Public Works

- B. Unburied Fiber line on Santos Drive – On March 22, Mayor Pro Tem Beck forwarded a resident concern about an unburied fiber line presenting a trip hazard on the sidewalk. After researching the issue, Charter/Spectrum representatives submitted a right of way (ROW) permit on March 15 for the work to be performed, which was still under staff review. After the review was completed, the permit was issued and approved on March 23. Charter/Spectrum and ITG informed staff that work would commence to bury the fiber line on March 28 and be complete by March 31, weather permitting. Once work is complete, staff will inspect the work in accordance with the City of Denton Standards and close the permit. Staff contact: Sheldon Gatewood, Capital Projects
- C. Metal Plate on Morse Street – On March 27, Mayor Hudspeth shared a resident question regarding a metal plate that was placed on Morse Street. The metal plate between Lakey Street and Jackson Street on Morse Street is covering an area while crews perform a repair to a wastewater service. The metal plate is used to cover the area to allow traffic to continue to flow. The contractor for SED-A will be milling out an area and repaving it with the completion of Mill Street on the west side of the DCTA track. The current schedule has that work being completed in late April/early May, weather permitting. Staff contact: Trevor Crain, Capital Projects
- D. Permit Process Timeline – On March 24, Council Member Davis conveyed a question from a permit applicant regarding the ability to expedite the permit process. Development Services is working with the applicant and conducted a pre-application conference on January 18, 2023. The City received an application on March 29, 2023, and will work diligently to accelerate the reviews as quickly as possible. It is important to note the Denton Development Code requires staff to review and approve a Zoning Compliance Plan and Civil Engineering Plans prior to issuance of the Building Permit. Staff will make every effort to assist the applicant throughout the permitting process. Staff contact: Scott McDonald, Development Services
