B. Bird Migration – “Lights Out Nights” – Denton will start to see an increase in the number of birds migrating through the region. Spring peak migration takes place Apr. 22 through May 12 in the state of Texas. The City recognizes “Lights Out Nights” during the peak migration periods, which encourages all residents and businesses to turn off non-essential lighting between 11 p.m. and 6 a.m. Any essential lighting should follow dark sky-friendly practices such as using shields to direct light downwards. C. DME Recognized as a Tree Line USA Utility – Denton Municipal Electric (DME) was recognized by the Arbor Day Foundation as a 2024 Tree Line USA utility. Through its power line maintenance program, DME benefits from lowering line clearance costs due to proper tree pruning. Properly pruned and maintained trees increases the reliability of service because those trees will have healthy root systems that decay less, have less structural weakness, and ultimately result in fewer downed lines during storms. D. DME Receives Award for Reliability – Denton Municipal Electric (DME) was awarded the Diamond Reliable Public Power Provider (RP3)[®] designation from the American Public Power Association (APPA). The Diamond RP3 designation is the highest designation in the public power sector and lasts three years. It highlights DME's success across four key areas: reliability, safety, training for their team, and ongoing improvements to their system. . Of the 250 public utilities who received RP3 designations, only 112 are recognized at the Diamond level. Staff contact: Bill Shepherd, Denton Municipal Electric

E. Forestry Grant Award – The City received a \$20,000 Community Forestry Grant from the Texas A&M Forest Service. This program supports local efforts to develop sustainable programs encouraging healthy trees and forests. The grant funds will be used to support the planting of 107 native and adapted trees along the center median of Shady Oaks Drive on Denton’s east side. Denton is among 22 cities, schools, and nonprofits in the State of Texas selected to receive funding under this Texas A&M Forest Service Grant. Staff contact: Haywood Morgan, Parks and Recreation

G. Recent Tree Removals – Parks staff recently identified two highly visible, large trees of concern. Upon further assessment by the Urban Forester and Certified Arborist, staff decided to remove both trees. The second tree (right photo) is a Red Oak located at Joe Skiles Park is two-thirds stressed, one-third dead, and is suffering from a Hypoxylon Canker, a fungus that kills trees and for which there is no remedy. Staff will plant new trees as near as possible to the location where dead trees have been removed. Staff contact: Haywood Morgan, Parks and Recreation

Responses to Council Member Requests for Information

- A. Trees on Utility Lines – On Apr. 9, Mayor Pro Tem Beck forwarded a resident’s concerns regarding a tree endangering power lines. Staff assessed the location and determined that the tree was clear of power lines but was within proximity to a communications line. The owner of the communications line is responsible for maintaining vegetation clearance, and the property owner is responsible for the health of the tree. Staff contact: Tony Puente, Denton Municipal Electric
- B. Annual Diesel Fuel Consumption – On Apr. 10, Council Member McGee inquired about the annual diesel fuel consumption. Approximately 675,000 gallons of diesel fuel are consumed annually. Staff contact: Dustin Rolfe, Facilities & Fleet

Information from the City Manager

From time to time, I would like to share with the City Council local government-related resources that I find insightful, interesting, or timely. On Apr. 9, DFD responded to a fire at a car shop along I-35. Engine 3 (E-3) and Truck 1 (T-1) were dispatched to the scene where they found heavy black smoke billowing from the shop. Firefighters were advised that the vehicle inside was a converted 1967 Chevrolet Camaro that was being modified to be an electric vehicle (EV), and the battery in the trunk of the car was on fire. Battalion 2 arrived on scene and assumed incident command. The rear of the vehicle, including the back seat and trunk compartment, was ablaze and crews took action to prevent the fire from spreading to the surrounding structure. Because the vehicle was unable to roll, Battalion 1 and E-3’s crew used a chain to pull the EV from the building into the parking lot. Once the car was outside, crews began using water to attempt to extinguish the battery fire and used fans to remove the toxic smoke from the building. Although the flames were reduced, it took an hour of continuous spraying of water on the battery from a handline before the fire could be completely extinguished.

The shop manager stated that one employee was burned on his face from the fire but had been taken to Medical City Denton ER by a fellow employee prior to fire crews arriving. The incident commander contacted a towing service with a dedicated EV response crew to remove the vehicle to a specialized EV fire shop. Fire Marshals 280 and 128 were on scene to collect evidence and information for their report. After the wrecker left the scene, all DFD units returned to service without incident.

The quick and decisive actions by fire personnel contributed to a positive outcome and may have saved the entire structure.
